

Fostering Self-Confidence Through Innovation

Our central mission was to explore and enhance self-confidence in primary school children. This was approached through an immersive exploration of innovative educational methods. The discussions and workshops focused on integrating these approaches into everyday teaching, aiming to revolutionize how we empower our young learners.

We're excited to share the latest developments from our ongoing project, "Grow Confidence in Primary School Children," part of the esteemed Erasmus+ initiative. This week marked a significant milestone as we gathered in Sarajevo's picturesque Holiday hotel for a transformative Learning Teaching Training (LTT) event.

A Convergence of Educational Minds

The event was a vibrant hub, bringing together dedicated teachers from across the globe. Each participant, a delegate from our partner organizations, contributed their unique insights and experiences, embodying the collaborative spirit of this project.

GROW CONFIDENCE IN PRIMARY SCHOOL CHILDREN

COLLABORATIVE LEARNING AND SHARING

Key highlights included in-depth discussions on the latest pedagogical trends. Participants shared inspiring examples of best practices and experiences, fostering a rich exchange of ideas. A significant outcome was the development of new educational materials and methods, promising to enrich our teaching practices.

A HEARTFELT THANK YOU

We extend our deepest gratitude to every participant for their unwavering passion, invaluable knowledge, and dedicated commitment. Your contributions are shaping a brighter future in education. Together, we are not just teaching; we are inspiring confidence and nurturing potential in every child.

»»» LOOKING FORWARD

As we continue on this exciting journey, we look forward to more such events and the impactful changes they bring to the world of education. Stay tuned for more updates on our project's progress and the positive changes we're fostering in young minds.
